

All Creation is Groaning: An Interdisciplinary Vision for Life in a Sacred Universe (Connections)

This multi-academic perspective on contemporary environmental issues reminds us of our oneness with the natural world and what that calls us to as moral creatures. Fashioned as a series of stories based on the model of biblical narrative, these seemingly multivalent voices and perspectives are joined together with biblical stories, references, and theological reflection to create in *All Creation Is Groaning* a seamless story that is both provocative and revelatory. *All Creation Is Groaning* provides a clear Vision of living life in a sacred universe. This Vision is linked to the biblical Vision of justice and righteousness for all of creation, and humankind's responsibility to hasten the Vision through a call to ethical practice. Critical and hermeneutical, this book reflects an interdisciplinary approach so as to build bridges of understanding between the Bible and contemporary disciplines. Chapters are *Stories from the Heart, - *New Ways of Knowing and Being Known, - *An Islamic Perspective on the Environment, - *Christian Values, Technology, and the Environment Crisis, - *Feeding the Hungry and Protecting the Environment, - *Mental Cartography in a Time of Environmental Crisis, - *Toward an Understanding of International Geopolitics and the Environment, - *Sustainability: An Eco- Theological Analysis, - *The Stewardship of Natural and Human Resources, - *Development of Environmental Responsibility in Children, - *An Ecological View of Elders and Their Families: Needs for the Twenty-First Century, - *Symphonies of Nature: Creation and Re-creation, - *A Sense of Place, - and *Hope Amidst Crisis: A Prophetic Vision of Cosmic Redemption. -
