

Kid-Friendly Ways To Change Behavior - Fun conflict Management Tactics For Parents (Conflicts and Negotiations series Book 1)

Parenting and fun are two words that are rarely combined. In fact, say those two words together out loud to a parent and you'll likely get a snort, a laugh or a roll of the eyes, if not a look that says You either haven't tried parenting yet or are seriously out of your mind. This is because being a parent means having to negotiate with your child on a daily basis and let's face it - you end up losing most of the time (if not losing your mind). This book Kid-Friendly Ways To Change Behavior lets you know you are not alone in the problems you face. More than that, it gives you practical easy-to-follow-tips on how to influence your child to be the kind of child you want him or her to be while accomplishing being the parent you want to be. The author, Asaf Shani, has worked in conflict management for 15 years and during his conflict and negotiation workshops for corporate executives, he noticed that questions would arise about how to apply the techniques at home. Following his unique methodology to solve lingering conflicts, students came back to him, excited to share their success. Encouraged by the success of his students, Asaf tried these methods on his own three daughters and was delighted to discover that their devious conspiracies were powerless against these practical techniques. (Well, not powerless, but the techniques helped Asaf and his wife stay one step ahead of their shenanigans.) Now you can use these tools to acquire a new perspective on family conflicts and influence your kids through enjoyable means - enjoyable both for you and for them. Indeed, by following the tried and tested techniques detailed in this book, you are sure to resolve more of your conflicts with your children and in the process, have less conflicts with your partner. And who knows? You just might find that parenting is fun, after all.
