

The Millionaires Fake Fiancee

Harley Taizer wasn't used to dealing with her greedy parents. They'd never wanted her and made it perfectly clear by giving her to her grandfather the day she was born. It's funny how things change when money is involved. Discovering her trust fund her parents show up demanding she give them the money. Afraid of just how far his son and daughter-in-law will go to get it her grandfather brings in a security specialist to help protect her. Kasper Drake hasn't met a trust fund baby he liked, though he is one himself. Upon meeting his uncle's newest client he's willing to throw out all his preconceived notions out the window. He's trying to get Harley to admit to their fierce attraction when her father shows up demanding to know who Kasper is. She tells him that he's her fiancé. Kasper latches onto her lie hoping to make her see how good it could be.
