

## Growing Gills: A Fly Fishermans Journey

I know that most families have stories of fishing trips, but with mine its a little different. These arent tales told and born anew each time everyones back together. These arent stories marking the one or two outings when a father took a son fishing. These stories are our lives, the cornerstones of our existence, the reason that we continue to wake up and give the world another go. The tales are the points along our linear journey through this world and the only thing to assure us that we ever lived. In the quilt work of our lives these are the patches stitched together by our breathing, the only thing that holds it all together. Fishing is not a hobby; it is who we are. - David Joy, Author David Joys Southern memoir details a North Carolina fly fishermans youthful experiences in the Outer Banks and Piedmont to his pursuit of native brook trout in the Appalachian Mountains. This work of literary nonfiction encapsulates the philosophical underpinnings of a man defined by fish, family, water, solitude, environment, and wilderness.
