

The Dhammapada

The Dhammapada Translated from the Pali by F. Max Muller The Dhammapada (Pali; Prakrit: Dhamapada; Sanskrit Dharmapada) is a versified Buddhist scripture traditionally ascribed to the Buddha himself. It is one of the best-known texts from the Theravada canon. The Dhammapada consists of 423 verses in Pali uttered by the Buddha on some 305 occasions for the benefit of a wide range of human beings. These sayings were selected and compiled into one book as being worthy of special note on account of their beauty and relevance for moulding the lives of future generations of Buddhists. They are divided into 26 chapters and the stanzas are arranged according to subject matter. The title, Dhammapada, is a compound term composed of dhamma and pada, each word having a number of denotations and connotations. Generally, dhamma can refer to the Buddhas doctrine or an eternal truth or righteousness or all phenomena; and, at its root, pada means foot and thus by extension, especially in this context, means either path or verse (cf. foot (prosody)) or both. English translations of this texts title have used various combinations of these and related words.
