

## Diary of a Mixed Up Chick

This memoir, *Diary of a Mixed Up Chick*, follows the main character Faith as she drifts into a mental health breakdown. She is struggling to come to terms with the decline of her father to Alzheimers when she faces the trigger to her breakdown. Gradually she falls further and further into disarray as she is diagnosed with dissociative identity disorder. During this time she experiences amnesia, discovers child parts she never knew existed and recovers raw memories of childhood abuse. It contains an original therapy journal that existed to communicate this abuse to her therapist. It also touches on alcohol abuse, depression, child protection and many other issues surrounding her diagnosis. More than this, it is a bittersweet love story.
