

Quality of Life in Old Age: International and Multi-Disciplinary Perspectives (Social Indicators Research Series)

This volume brings together leading researchers on quality of life in old age to focus on one of the most important issues in both gerontology and quality of life studies. There are very few texts available on this topic and none of an international and multi-disciplinary nature. For these reasons and the high quality of the authors we have assembled, this will be a seminal text for both gerontology and quality of life researchers.
