

# The Managers Pocket Calculator: A Quick Guide to Essential Business Formulas and Ratios

Your success or failure is reflected in one number: the bottom line. So you'd better get a handle on the numbers that influence it. The Managers Pocket Calculator gives you the essentials of budgeting and forecasting, financial analysis, reporting, interest and rate-of-return calculation, statistics, and more. Not just an overview, the book contains more than 100 formulas and ratios with numerical examples, spreadsheet entries, and step-by-step calculations. The Managers Pocket Calculator trains you in the application of mission-critical business fundamentals, better preparing you to: Create and justify budgets Excel in planning meetings concerning financial performance Craft reports and presentations demonstrating financial outcomes Communicate with internal and external accounting, auditing and other financial entities An indispensable, everyday business tool, The Managers Pocket Calculator makes you more than a manager. It makes you a powerful architect of your organizations financial stability.
