

Joseph Ratzinger in *Communio*: Vol. 1, The Unity of the Church (Ressourcement: Retrieval and Renewal in Catholic Thought (RRRCT))

The Unity of the Church brings together a captivating collection of articles previously published in *Communio* by Pope Benedict XVI. The essays deal with various issues facing the church in the world today, including what divides and unites denominations, the growing crisis facing peace and justice, technological security, and the necessity of ecumenism in the growth of the church. / Pope Benedict XVI rarely writes on any churchly matter that does not manifest its implications for man and culture, and vice versa, notes David Schindler in the introduction. This collection is a brilliant expression of that tendency toward interconnectivity. / *Dwelling in Love* is part of the *Ressourcement: Retrieval and Renewal in Catholic Thought* series, edited by David L. Schindler.
