

# Man to Man

Today men hear dozens of conflicting voices telling them how to be men. They're told to go out and beat the tribal drums or become sensitive New Age followers or dig deep into their psyches to find the macho warrior within. It all sounds good on paper, but it isn't so helpful when it comes to living authentic lives. Man to Man talks about real issues, real feelings, real life connecting with the felt needs of men right now where they live and work. This down-to-earth collection of insights from Chuck Swindoll offers practical inspiration for the working man, the single man, the husband, the father, the son any man who wants to live well and enjoy life to the fullest. Now in softcover.
