

## One Hot Night

Hearts can change in just one night... One Night with her Bodyguard: As the introverted daughter of a Hollywood mogul, Claire tries to avoid the limelight. She isn't used to be surrounded by other people all the time--particularly sexy bodyguard Michael Lyle who is always, always around. She thinks he sees her only as a job, until one hot night...when all the feelings hidden inside his strong, stoic demeanor are finally released. One Night in the Ice Storm: When she returns to her hometown for the holidays, Rachel doesn't expect to be stranded in an ice storm with only David Harris for company. Eight years ago, David took her virginity and then broke her heart, and she doesn't plan to forgive him. She thinks she doesn't care about him anymore, until one hot night...when the ice finally melts. One Night with her Best Friend: Kate prides herself on her well-organized life--with job, boyfriend, and best friend clearly in their places. Aaron has been her best friend for fourteen years, and it's never been romantic between them. She thinks it never can be, until one hot night...when Aaron becomes much more than a friend.
