

## Porters Reaper (A Wizards Touch Series Book 5)

A Wizards Touch: Wizards, shifters, dragons and gnomes work to circumvent monsters and evil in this series of paranormal mates. In this group of stories, lovers must use their supernatural abilities to overcome adversity against what they are and who they choose to love. Even the strongest wizard will need his mate to keep him alive, and the weakest man will find strength in the people around him. Come visit the world of magic and find out how true love can only survive with A Wizards Touch Porter's Reaper by Amber Kell Book Five in the A Wizards Touch series Death is a minor inconvenience in the path to true love. When the God of the Underworld sends Alstair back to the Academy to help pick out a new headmaster, he doesn't mention he put Alstair in for the job. Angered but willing to keep his word, Alstair discovers the headmaster position comes with more knots of deception than a sailor's rope. Porter Exton had a crush on Alstair. He'd watched Alstair train Elijah through the window and had spent more than one night dreaming of the Reaper. However, dreams were set aside in order to discover the truth about his death and if the man who killed him is responsible for the other deaths at the school. Two men with different backgrounds need to discover what they have in common if they hope to save themselves from plotting gods, egomaniacs and possible killers. Amber Kell About the Author: Amber Kell has made a career out of daydreaming. It has been a lifelong habit she practices diligently as shown by her complete lack of focus on anything not related to her fantasy world building. When she told her husband what she wanted to do with her life he told her to go have fun. During those seconds she isn't writing she remembers she has children who humor her with games of what if and let her drag them to foreign lands to gather inspiration. Her youngest confided in her

that he wants to write because he longs for a website and an author name two things apparently necessary to be a proper writer. Despite her husband's insistence she doesn't drink enough to be a true literary genius she continues to spin stories of people falling happily in love and staying that way. She is thwarted during the day by a traffic jam of cats on the stairway and a puppy who insists on walks, but she bravely perseveres.
