

## Selling the Sixties: The Pirates and Pop Music Radio

Was it a non-stop psychedelic party or was there more to pirate radio in the sixties than hedonism and hip radicalism? From Kenny Everetts sacking to John Peels legendary `Perfumed Garden show, to the influence of the multi-national ad agencies, and the eventual assimilation of aspects of unofficial pop radio into Radio One, *Selling the Sixties* examines the boom of private broadcasting in Britain. Using two contrasting models of pop piracy, Radios Caroline and London, Robert Chapman sets pirate radio in its social and cultural context. In doing so he challenges the myths surrounding its maverick `Kings Road image, separating populist consumerism from the economic and political machinations which were the flipside of the pirate phenomenon. *Selling the Sixties* includes previously unseen evidence from the pirates archives, revealing interviews and an unrivalled selection of rare audio materials.
