

SMother: The Story of a Man, His Mom, and the Thousands of Altogether Insane Letters Shes Mailed Him

SMother is a hilarious memoir based on 30 years of unsolicited advice, news updates, and opinions in the form of thousands of inappropriate, embarrassing, and utterly crazy letters showing the pathological extremes maternal instincts can take. Why is a grown woman so frantic that her adult son screw on his windows to keep out killer bees? Are adult trick-or-treaters really that much of a threat? Adam saved his moms letters as proof this all happened and reproduces many of them in the book. And now, with time, perspective, and plenty of therapy, he acknowledges and accepts the comedy of it all and is proud to share his story with you, if for no other reason than to make you feel better about your own mother.
