

Up Till Now: The Autobiography

The New York Times bestseller After almost sixty years as an actor, William Shatner has become one of the most beloved entertainers in the world. It was the original Star Trek series, and later its films, that made Shatner an internationally known figure, but he neither began nor ended his career with Captain Kirk. He straddled the classic world of the theater and the new world of television. He stepped in for Christopher Plummer in Shakespeares Henry V and stared at something on the wing in a classic episode of The Twilight Zone. And since then, hes gone on to star in numerous successful shows, including T. J. Hooker, Rescue 911, and Boston Legal. In his touching and very funny autobiography Up Till Now, William Shatner reveals the man behind these unforgettable moments and tells us how hes become the worldwide star and acclaimed actor he is today.
