In seeking to explore the interrelationships between, and mutual influence of, varieties of sexual stereotypes and religious views of the Mahayana Buddhist tradition, *Women in Buddhism* succeeds in drawing our attention to matters of philosophical importance. Paul examines the image of women which arise in a number of Buddhist texts associated with Mahayana and finds that, while ideally the tradition purports to be egalitarian, in actual practice it often betrayed a strong misogynist prejudice. In *Women in Buddhism*, Diana Paul may be forcing our consideration of the problem of female enlightenment. Thus the main purport and accomplishment of her scholarship is revolutionary. *Philosophy East and West*
